Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The following is a Final Office Action in response to Applicant's Amendments and Remarks of 18 December 2006.

Status of Claims

2. Claims 1-5, 8-15, 18-24 and 27-29 are pending. Claims 6-7, 16-17 and 25-26 have been canceled.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 1-5, 8-15, 18-24 and 27-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Atkins (US Patent No. 5,875,437) in view of Sullivan et al (US Patent No. 6,615,240B1, hereinafter Sullivan) and further in view of Leemhuis

Art Unit: 3693

(US Patent No. 6,470,325). In reference to claims 1, 11 and 20, Atkins discloses a method, system and computer program for developing a financial plan comprising:

- a. projecting expected yearly income for a period of time; projecting expected yearly expenses for said period of time; and providing at least one of the investment advice for any surplus of income over expenses and financing advice for any deficit of income over expenses (abstract; at least: col. 7, line 19 – col. 11, line 64).

6. In reference to claims 2, 12 and 21, Atkins discloses the method wherein the user income and expense history resident on external databases can be accessed by the model (abstract; at least: col. 7, line 19 – col. 11, line 64).

7. In reference to claims 3, 13 and 22, Atkins discloses the method wherein the user can introduce risk events into the model (abstract; at least: col. 7, line 19 – col. 11, line 64).

8. In reference to claims 4, 14 and 23, Atkins discloses the method wherein the risk event includes at least one of: job loss, disability, casualty, market downturn, theft, fire or collision (abstract; at least: col. 7, line 19 – col. 11, line 64).

Art Unit: 3693

9. In reference to claims 5, 15 and 24, Atkins discloses the method wherein the model predicts and highlights potential cash surplus and cash flow shortage for the use (abstract; at least: col. 7, line 19 – col. 11, line 64).

10. In reference to claims 8-10, 18-19 and 27-29, Atkins discloses the method wherein the financial model displays the aggregate cash flow in the form of a timeline over a defined period of time; wherein each annual point of said timeline can be interactively dragged up and down on its vertical axis; and the financial model recalculates the aggregated cash flow based on the new positions of said annual points (abstract; at least: col. 7, line 19 – col. 11, line 64).

11. In reference to the above claims (claims 1, 11, 20 and their dependent claims), Atkins discloses providing over the wide area network, accessible customized automated coaching directly to a user (abstract, at least: col. 7, line 19 – col. 11, line 64) but does not disclose:

b. counseling by a live advisor.

However, Sullivan discloses counseling by a live advisor in addition to automated coaching directly to a user (abstract; at least col. 2, line 11 – col. 3, line 67). It would have been obvious to one of ordinary skill in the art at the time of the Applicant's invention to have modified the automated coaching of Atkins to include the live advisor function of Sullivan because it would (1) increase the efficiency of the system for the

Art Unit: 3693

user, (2) user satisfaction would increase and (3) the advisor system would benefit from increase efficiency.

12. In reference to the above claims (claims 1, 11, 20 and their dependent claims), the system of Atkins and Sullivan discloses a method, system and apparatus for the financial planning method and system as detailed above including the financial projecting and the automated and live advising. The Atkins and Sullivan system does not disclose:

- c. Providing over the wide area network, a user-selected service level agreement from a plurality of available unique service level agreements, where each of the unique service level agreements includes a unique combination of available access to at least one of the automated coaching and the live advisor.

However, Leemhuis discloses a method, system and apparatus for financial planning that:

- provides over the wide area network, a user-selected service level agreement from a plurality of available unique service level agreements (col. 2, line 35+; service contracts for the financial planning, having different predetermined durations), where each of the unique service level agreements includes a unique combination of available access to at least one of the automated coaching and the live advisor.

It would have been obvious to one of ordinary skill in the art at the time of the Applicant's invention to have modified the Atkins and Sullivan financial system with the

Art Unit: 3693

service level agreement selection process of Leemhuis because the agreement would allow the customer to design the service level to their specifications.

Response to Arguments

13. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection, necessitated by amendment.

Conclusion

14. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
